4.1 WINCH EXTENSION STRAP PRODUCT INFORMATION SHEET

"Don't go bush without Bushranger 4WD Recovery Gear"

PRODUCT TIPS

Designed for strain to be applied gradually, not suddenly.

SAFETY PRECAUTIONS

- Do not allow the strap to be abused by abrasion across rocks or suffer nicks or cuts as this will lower its capacity and rating
- Do not use as a "snatch" strap as it will probably break and cause major damage to vehicle's chassis and suspension because it does not stretch

FEATURES

BENEFITS

Useful as a non-stretch tow rope in emergency situations.	Please check your local road rules for specifications on vehicle towing.
Reinforced eyelets.	Give added protection to the strap when used with shackles and tow hooks.
