

Classic High and Low Back Seats for the second row passenger.

X Classic High & Low Back Seats for the Second row passengers.

These classic upgrade seats are the perfect way to achieve a safer and more comfortable ride. These seats have been impact tested and meet all EEC regulations for retro fitting in a Land Rover.

Extremely sturdy internal metal frame work with high grade foam build and stylish design with integral headrest option to blend with the lower back rest.

High Back Seats
Low Back Seats

from **£89.50**
from **£87.60**

X Second Row Reclining Kit.

Designed for your LWB Defender to convert a 60/40 split bench seat fitted into models up to 2007 into 3 individual seats.

This will allow the seat frame to recline and be adjusted to any angle to suit the occupant. The frame work is all floor locking and supplied with keys so they can't be released unless unlocked, a good feature when children are involved. The kit is only supplied to convert all 3 seats and only our tested High and Low back seats will fit this framework.

This will achieve a set of second row seats with integral headrests for the rear passengers with its winning combination providing superior comfort for the passenger

A Classic High!

Safety matters...

Exmoor Trim offers an exclusive range of seat belts, specifically designed to fit your Land Rover using OEM parts only. We won't supply any other belt that isn't type approved.

X Standard Style Second Row Seats.

Our standard second row replacement seat bases and backs are available in a wide range of materials to match your existing 110" interior. These seats are simply a replacement for the original equipment and allow the second row seat frame to fold down behind the front seats.

X Second Row Extension Kit.

This simple yet clever design allows you to move the seat further back to create more leg room for the taller passenger. The kit will cause the seat back to be raised higher and will leave a gap between the seat back and base (see image).
