

XS

NEW XS Hood

Tailgate section has a simple locking bar system in the hood that locates into the retaining clips. This allows the tailgate to be opened and closed with ease without the need to release the hood every time you open the back door. With the option retained to have the side and rear of the hood rolled up.

Exmoor Trim's New Range of Top Quality Hoods for the Defender.

Our New and improved range of fabric hoods now use Stayfast hooding. The Stayfast hooding is harder wearing, totally waterproof and a step above the Mohair quality, with the addition of very high quality windows that look like a glass panel, along with expanding threads to ensure the hood remains watertight and show attention to detail.

All our Stayfast hoods come with a **3 Year warranty.**

Hood

NEW XS Hood

Is manufactured in the Stayfast hooding with the Alpine side windows and rear quarter windows as standard to create the classic hard top look. The hood attaches with a J clip section with no visible fitting once the hood is on.

NEW XS Hood for the Defender.

The XS Hood is designed to fit the new XS Safety Devices' full canopy support for the Defender 90. This replaces the Land Rover original hood sticks and includes all hoops, bracing and under-body support including front & rear seat belt mountings. Made from 45mm cold drawn seamless steel tube, the canopy support is powder coated black with zinc plated fittings.

All coming together to form a substantial easy to fit protective bar system.
