Total weight 43 kg

HEAVY DUTY RECOVERY POINTS

A must have for anyone considering any type of off-road or remote touring

Material: steel, thickness 10 mm

Working Load Limit (WLL) – 5000 kg

Total weight 12 kg

WINCH BRACKET

Designed to conceal the winch behind the original bumper

Easy and quick installation

Strong 6 mm steel frame Polymer coated and corrosion resistant

Installation of winch up to 12 000 lb

Bracket weight (without winch) 14.5 kg

SIDE STEP BARS

Easy installation using existing fitting points and reinforced brackets

Anti-slip treads

Protects vehicle during off-road driving

Powder coated and corrosion resistant

63 mm steel tube construction

Total kit weight 57 kg

ALUMINUM ROOF RACK

Made of lightweight and strong aluminum alloy with polymer coating, resistant to corrosion

Possibility to take off upper deck for transportation of baggage/tent

Possibility of additional lightning installation

Max load up to 120 kg

Total weight 18 kg

ALUMINUM UNDERBODY ARMOR

- Constructed using 6 mm aluminum
- Kit includes six plates – Arm protection, radiator, engine, gearbox, transfer case, fuel tank
- Stiffening ribs provide maximum strength
- Powder coated and corrosion resistant
- Easy, no drill installation using existing fitting points
- Concealed fittings to protect them from damage while off-road driving
- Minimal effect to ground clearance
- Drain holes for water and dirt drainage
- Ventilation holes
- Total kit weight 36 kg

TAILGATE ASSIST KIT

Easy opening of the tailgate

High safety feature for small children

Hands free operation

Clean clothes

Standard tailgate installation system

Installation onto OE fitting points

2 dynamic gas struts STABILUS and 4 mm steel fittings

Zinc-lamellar coating to the fittings

Individual application of fittings and selection of gasstrut for each specific car model

Where others cannot overcome the limits of their own capabilities, the vehicles equipped with RIVAL expeditionary and off-road equipment continue to move without compromise. Our products increase not only the ability to pass, but also add to the comfort in driving. You can fasten everything you need for a long journey in RIVAL aluminum transformer roof rack. The RIVAL aluminum bumpers will protect you when traveling outside regular roads. If it happens that you or your friend get stuck, the built-in winch will allow you to continue your way.

We create equipment for comfortable and safe travels in your stylish vehicle.
