

Heating Time Management - Telestart T100 HTM

Discover an absolute world first with the Webasto Telestart T100 HTM: the first intelligent heating time management system.

Simply programme your departure time and the heating time manager computes and verifies the heater activation time for you, dependent upon the prevailing ambient temperature.

The Telestart T100 HTM is the ideal companion throughout your busy day.

With a range of up to 1,000 metres, this innovative remote control enables you to activate the heating or ventilation function of your parking heater immediately, any time you want.

It's intelligent automatic function controls the heating time for you. Thanks to its handy size, this new Telestart remote control fits easily into any pocket or handbag.

You enjoy perfect heating comfort, whilst benefiting from perfect economy.

And the fully automatic timing function lets you enjoy a relaxed breakfast!

Advantages at a glance

- HTM (Heating Time Management) - state of the art technology that does the thinking for you, with automatic heating time computation
- Simple two button operation and easy to understand status and function icons
- Can be programmed to meet your own requirements
- Automatic or manual operation as desired
- Modern design and handy size, ideal for hanging on key rings
- Aerodynamic design
